

## Emerging Artists

jottaContemporary identifies young and emerging artists who utilise varying discourses and disciplines.

jottaContemporary encourages artists who work with various mediums from painting, sculpture, installation, performance and film.

Creating an online profile of artwork on [jotta.com](http://jotta.com) provides artists a platform for their work to be viewed, discussed and interacted with.

jottaContemporary uses jotta's portfolio system to help identify the best in emerging artists and designers as well as working hand in hand with colleges and young collectives across the UK and Europe.

jottaContemporary,
